

DISCOVER THE REAL POWER OF STEAM

AKR 5000 LOOSENS DIRT AND KILLS BACTERIA ON CONTACT

TPA

Light up your cleaning

FEATURES

- Stainless steel boiler
- Adjustable vapor-steam volume
- Multiple cleaning tools

AKR 5000 - The real power of steam

AKR is a steam generator equipped with the latest technical solutions that allow full control of cleaning tasks thanks to the practical handle with integrated electronic controls and a wide range of accessories.

The **high heat of steam** provided by AKR 5000 kills bacteria, viruses and germs virtually on contact. The air is free from toxic and potentially harmful chemicals., leaving any environment **hygienically clean and safe for all.**

TECHNICAL DATA AKR 5000

Voltage	115 V	230 V
Start-up time	13 min	9 min
Refilling Boiler system	Manual	Manual
Pressure	4,5 bar (450 kPa)	4,5 bar (450 kPa)
Max temperature	155°C	155°C
Boiler capacity	2,3 L	2,3 L
Boiler material	AISI 304	AISI 304
Boiler power	1,450 W	1,450 W
Iron power	850 W	850 W
Steam production	42g / min	42g / min
Max power consumption	1,450 W	1,450 W
Steam flow regulation	Yes, manual	Yes, manual
Weight	8,5 kg	8,5 kg
Operating range	7 m	7 m
Dimensions L x P x H (mm)	460/310/330	460/310/330

AKR 5000: designed for heavy duty cleaning
