**EPO GROUT**

EpogROUT system to fill up concrete surface. Instruction to use: a) Mix the two components (A+B) very well. b) Apply the product as normally applies a filler in order to close the porosity. 5 Kg of the product can cover 25-40 m<sup>2</sup>/q according the porosity of the surface c) Proceed spreading the Mineral C on the surface treated with EpogROUT A+B. 20 Kg cover about 25-40 m<sup>2</sup>/q according the porosity of the surface d) Grind the surface with Jumper Inox for reacting Mineral C with EpogROUT and to fill up the porosity

00639	Epo Grout A+B	5 kg - (A 3,55 Kg + B 1,45 Kg)	
00640	Mineral C	25 kg	
0756INOX	Jumper Inox		

**Slurry Dryer**

Solidifier for concrete and natural stones sludges.

Slurry Dryer solidifies slurry and sludges into a NON DANGEROUS gel-like condition, easy to collect and to handle without producing dust. **Use:** • Concrete grinding and polishing • Concrete and stones saw cutting and drilling • Concrete areas to rinse (ex. Concrete mixers) • Stone restoration

04117	Slurry Dryer	20 Kg.

**Tools & Cloths**

04231	Microfiber cloth	50x22mm	
1000550	Microfiber cloth tools	50x22mm	
2000303	Antistatic cloth	60x22mm	
1100404	Antistatic cloth tool	60x22mm	

**Microfiber Disc**

04230	Microfiber	17"/ø430mm	Single Disc 17"
04229	Microfiber	9,5"/ø240mm	BK 530, BK 950, 850, 750, 650

**Super Black HD**

Special Abrasive Floor Pads to clean the concrete for the system of SUPERCONCRETE FAST.

30173HD	Super Black HD	17"/ø430mm	Single Disc 17"
30813	Super Black HD	13"/ø330mm	Runner 13", Bk Counter Top
30809	Super Black HD	9,5"/ø240mm	BK & Challenger Series
