

TECHNICAL DATA SHEET

POLISH BK 85

Polishing powder for marble and stones containing calcium carbonate.

Instructions: Spread some powder under the felt and add the minimum quantity of water needed to get a dense mud. Polish a small surface at a time and carefully rinse the surface with water.

NOTE: using too much water does not allow the marble surface to heat and that slows down the polishing time.

WARNING: do not leave the powder on the polished floor without rinsing, it may remove the gloss

**Contains:
Potassium Oxalate
Oxalic Acid**

DANGER

- H312 – Harmful in contact with skin.
- H302 – Harmful if swallowed.
- H318 – Causes serious eye damage.
- P264 – Wash thoroughly after handling.
